HAIRDRESSING AND BEAUTY THERAPY
I like working in the salon as I get to interact with the general public. I’d like to open my own hairdressing business.

Danielle Curtis
Level 3 Hairdressing

Hairdressing and Beauty Therapy courses at Tresham are consistently some of our most popular in the college. We have salon training facilities at Corby and Kettering so all of our students are able to develop their skills across the widest range of techniques.

Our experienced team of tutors will work to develop your professional skills, taking you from the core techniques through to the latest technological developments in hairdressing and beauty therapy.

Tresham Studios, our commercial hairdressing and beauty salons, operate at both campuses. These well equipped, industry standard environments give you the opportunity to gain practical, supervised experience working with fee paying clients.
As an integral component of your course, if you do not already have a grade C (grade 4) or above in GCSE maths and English, we will also schedule your timetable to enable you to retake GCSE or Functional Skills qualifications depending on your own individual circumstances.

Since September 2016 we have offered our hairdressing courses in partnership with Lee Stafford Education.

Lee is one of Britain’s most successful, multi-award winning hairdressers and our teaching team has undertaken extensive training to enable them to teach the Lee Stafford programme.
